

# SUPERSPORT™ 2.0

The SuperSport 2.0 luminaire is the smallest, lightest, and most technologically advanced arena sport lighting solution available.

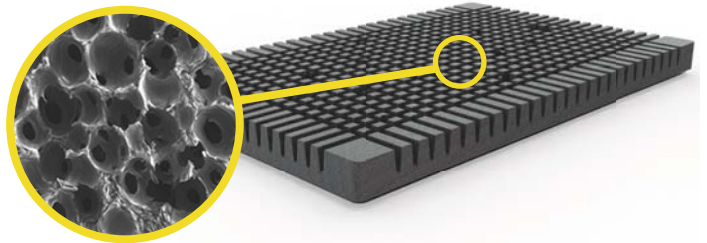

## A SPECTRUM OF POSSIBILITIES

In addition to the array of powerful white Cree XP-L LEDs, the SuperSport 2.0 has added RBGA color LEDs for an enhanced crowd experience, fine color tuning and the ability to change color temperature (CCT). The SuperSport 2.0 is guaranteed to meet all HDTV foot-candle and color temperature specifications.

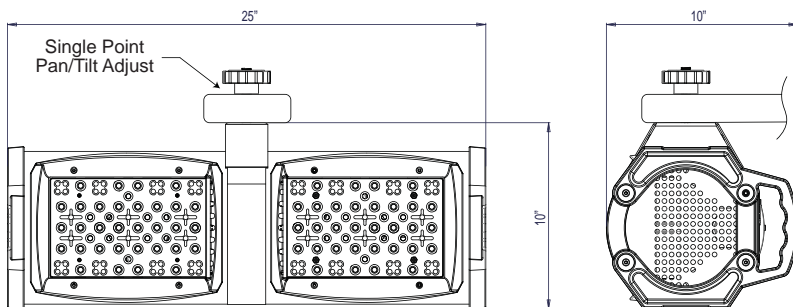

## GRAPHITE-FOAM HEATSINK TECHNOLOGY

The SuperSport 2.0 utilizes patented graphite foam thermal technology, thereby eliminating the bulk and weight of traditional aluminum heat sinks. This makes the SuperSport 2.0 the most compact and flexible luminaire on the market.

## SECURE CONTROL

Each SuperSport 2.0 luminaire has a dedicated 32-bit microprocessor which allows for real-time color and brightness adjustment. The VENUE MANAGER™ software keeps you up-to-date with live performance diagnostics, energy usage, and service alerts.

## SPECS\*

LUMEN OUTPUT	40,000 LUMENS
INPUT POWER (WATTS)	403 WATTS
EFFICACY (LM/W)	100 LM/W
COLOR TEMPERATURE (CCT)	5000K
COLOR RENDERING INDEX (CRI)	80 (90 OPTIONAL)
DIMENSIONS	25" L X 10" ROUND
VOLTAGE INPUT	100-277 VAC
BEAM ANGLE	23°, 34°, 53°, OR 65°
WEIGHT	22 LBS
WARRANTY	10 YEARS
CERTIFICATION	UL 1598; ETL LISTED
ENVIRONMENT	DAMP LOCATION RATED
MOUNTING	CATWALK OR PENDANT

\*PRELIMINARY SPECS - PENDING LM-79 TESTING
